Flag: Follow up

Hi All,

Apologies for the slow response. I had travel issues last week and we just started the North American Bee Research Conference today.

For the dates listed, I'm available:

Tuesday, Jan 18th (9am-1p; 3-4p CT)
Friday, Jan 21 (9-10am; 11am-2p CT)

Thanks,

Judy Wu-Smart

You are not free on Monday. It's a federal holiday and EPA will be closed!

I don't know that I need to be there, but since I'm emailing...
I'm only working mornings Tu-Th next week as I'll have family in town. Tuesday and Thursday are already pretty booked.
Friday morning is good on my end.

Hi All,

Any chance we can set up a meeting for next week? We're coming up on some deadlines in early February to lay out our upcoming research plans.

I'm free Monday and Tuesday afternoon and Friday morning, plus a few windows here and there other days.

Best,
Jeff

Hi Everyone,

Thanks Dan for the intro. It would be great to meet up and discuss bees at AltEn. Apologies for the slow response, I was out of the office last week but I just filled out the poll.

Best,
Jeff

Hi All,

Thanks Dan for making introductions.

I'd be happy to meet to discuss the work with bees around ENREC and AltEn. I'll be out of the state for conferences the first few weeks of January so

I've attached a scheduling link to see if there's a time to connect either before or after the holiday break. If we can fill this scheduling out by this Friday then I can confirm a time and send a zoom link out. If those dates don't work then please suggest some alternative dates and I will likely be able to zoom even if I'm travelling.

Hi Judy,

Jeff Minucci and Tom Purucker (cc'd on this email) are the EPA scientists interested in studying the AltEN ecological effects we mentioned at our meeting a couple of weeks ago.

I suggest that you set a time to discuss the work you have been doing at ENREC and around the AltEN facility to measure effects to bee populations.

Let me know how I can help. Thanks! -Dan

Dan and Shannon,

Jeff and Tom are quite keen to get in touch with Judy to discuss bee research at the AltEn site. Would you mind making that connection?
